DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10 and 27-29, drawn to a non-aqueous secondary cell comprising plural positive electrodes and negative electrodes having particular minimum energy capacity and energy density requirements.

Group II, claim(s) 11-29, drawn to a non-aqueous secondary cell.

Group III, claim(s) 30, drawn to a secondary battery having operation parameter measuring electrodes.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
 - a. Group I recites the special technical feature of a non-aqueous cell comprising positive electrodes and negative electrodes having particular minimum energy capacity and energy density requirements. Neither of Groups II or III recite this special technical feature;
 - b. Group II is drawn to a non-aqueous secondary cell and more notably to the separator parameters. Neither of Groups I or III are drawn to this special technical feature;
 - c. Group III is drawn to a secondary battery having operation parameter measuring electrodes. Neither of Groups I or II recite this special technical feature.
3. A telephone call was made to Daniel E. Altman on July 7, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1745

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregg Cantelmo whose telephone number is (703) 305-0635. The examiner can normally be reached on Monday through Thursday from 8:00 a.m. to 5:30 p.m. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Pat Ryan, can be reached on (703) 308-2383. FAX communications should be sent to the appropriate FAX number: (703) 872-9311 for After Final Responses only; (703) 872-9310 for all other responses. FAXES received after 4 p.m. will not be processed until the following business day. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
